*SparQ*  
*Quality that shines*

R-Tech's manufacturing operations are currently housed in a 55,000 square-foot facility at Daman, near Vapi. Our manufacturing floor operates under the 5-S Philosophy. We are equipped with automation including de-gating machines, auto-loaders, etc.

At R-Tech, our people are what make the difference – people who are willing to put their best effort forward for the success of the customer. We believe that if our customer is successful, then we will be successful.

R-Tech's Management consists of a highly qualified team with vast experience in manufacturing of Products. We are well known for quality and consistency of products. By combining strong internal resources and leveraging our experienced team, we deliver outstanding support to our customers.

Our Experience across many industries helps our team effectively identify the right technologies and materials needed. We have varied sizes of horizontal and vertical injection moulding machines as well accessories to meet all our customers manufacturing demands. In addition we have experience in using various raw materials like PP, HDPE, LDPE, HDR, HIPS, PC, ABS, SAN, PC, ACRYLIC, GPPS, TPR, EVA, DELRIN, NYLON etc.

Whether your product is targeted towards local, regional, national, or international markets, our talented team has the tools and the resources to help you succeed.

Our long-standing relationship with current customers and proven excellence in manufacturing speaks for itself. Our Team has a proactive, can-do approach, where quality is a way of life, innovation is an ongoing reality, and "getting the job done right the first time" is a priority.
